Attention: Mr. Jason Vivian

Subject: Road D39 Bridge (Replacement) over Traver Canal Project
Construction Services Proposal

Dear Jason:

Biggs Cardosa Associates, Inc. is pleased to submit the following cost proposal to provide construction engineering services on the subject project.

This proposal covers the following services:

- A. Project management during construction and attending the preconstruction, construction kick-off, and up to 2 construction progress meetings.
- B. Provide RE coordination and support including RE File coordination and clarifications
- C. Construction site visits (total 2 max) during construction as required.
- D. Perform the review of all structural shop drawings and structural submittals required by the project specifications and the Caltrans Standard Specifications. We have assumed that the County's Resident Engineer / Structure Representative will be selective with requesting field level submittals to be reviewed by the Design Engineer to minimize the number of these additional field level submittal required to be reviewed by the Design Engineer.
- E. Respond to RFIs and developing associated CCOs to clarify the construction documents during construction.
- F. Provide As-Built Drawings based on Contractor's red-lined changes. The as-built mark-ups will be hand-drafted on the original signed vellums per current Caltrans Structures guidelines.

We propose to provide the requested design scope of services on a **time and materials basis, not to exceed \$26,500**, including expenses.

Our billing rates and reimbursable expenses are per the attached rate schedule. Please note that rates shown are current for the period 10/1/2016 to 09/30/2017. Biggs Cardosa Associates gives raises to employees and adjusts rates every year effective October 1. Rates for subsequent years (starting on 10/1/2017) will be per our standard billing rate schedule for that year, but in no event will rates increase at more than 5% per year.

Assumptions:

- ◆ The project construction will start in November 2017 and the construction duration will last no longer than 4 months.
- ◆ A maximum of 3 site visit including the preconstruction meeting and construction kick-off meeting will be required over the course of construction.
- ◆ The County's Resident Engineer / Structure Representative will be selective with requesting field level submittals to be reviewed by the Design Engineer to minimize the number of these additional field level submittal required to be reviewed by the Design Engineer.
- ◆ Responding to RFIs and developing associated CCOs to address contractor errors, alternative construction method requests, or unforeseeable construction field issues (contractor scheduling, contractor equipment limitations, 3rd party coordination/limitations, undocumented existing conditions, etc) that could not typically have been anticipated during design development is not included in the scope of services but can be added as Extra Work Request as required.

Should you have any questions, please do not hesitate to call.

Sincerely,

BIGGS CARDOSA
ASSOCIATES, INC.
