The Tulare County Health and Human Services Agency (HHSA), Mental Health Branch, collaborates with Tulare County Superintendent of Schools to provide the Children of Promise Program under the Mental Health Services Act (MHSA) Prevention and Early Intervention (PEI) component.

The Children of Promise Program is designed to provide services to youth, primarily in sixth through twelfth grade, by focusing on the development and strengthening of skills needed to increase school performance, decrease drug involvement, and decrease suicide risk behaviors.

practices, Reconnecting Youth and Coping and Support Training. Tulare County Superintendent of Schools is the national owner of Reconnecting Youth, which has proven to be a preferred curriculum highlighted in the national best practices registry. Tulare County Superintendent of Schools is the logical partner for administering COPP as they continue to provide educational training to Tulare Counties youth. Based on these requirements, Tulare County Superintendent of Schools is the only qualified provider and the RFP process was not appropriate for this component.

From July 1, 2018, to June 30, 2019, the program plans to provide outreach activities and direct services to a total of 550 youth.

**FISCAL IMPACT/FINANCING:**

Funding for this Agreement in an amount not to exceed \$288,227 will be included in the Fiscal Year 2018/2019 budget. This agreement is paid through Medi-Cal and Mental Health Services Act (MHSA) Prevention and Early Intervention (PEI) funding. There is no additional net cost to the County General Fund.

**LINKAGE TO THE COUNTY OF TULARE STRATEGIC BUSINESS PLAN:**

The County's five-year strategic plan includes the Quality of Life Initiative that encourages innovative provision of quality supportive services for at-risk youth and children in state and federally mandated programs. This agreement increases the ability to fulfill that obligation by providing services to youth that focus on the development and strengthening of skills needed to increase school performance, decrease drug involvement, and decrease behaviors that increase the risk of suicide.
