2. Authorize the Chairman to sign the Agreement.

SUMMARY:

On June 12, 2018, the Board of Supervisors approved a Solar Project Purchase and Energy Storage Agreement to design, engineer, install, operate and maintain photovoltaic power generating systems and battery energy storage systems at seven (7) County sites for the period of twenty-five (25) years after the Final Commercial Operation Date.

Because the solar project at the Juvenile Detention Facility will generate more than 1,000 kW, Pacific Gas and Electric (PG&E) require the County to enter into an interconnection agreement, which governs the terms and conditions under which the County will interconnect with and operate in parallel with PG&E's energy distribution system. Similar agreements will be necessary for sites in Southern California Edison energy distribution areas. Therefore, it is requested that the Board approve the Interconnection Agreement and authorize the Chairman to sign.

The proposed Agreement has been approved as to form by County Counsel. The
