**SUBJECT:** Public Hearing for Adoption of Fee Adjustments

**REQUEST(S):**

That the Board of Supervisors:

1. Conduct a public hearing considering the proposed fee adjustments for Tulare County Health & Human Services Agency: Environmental Health, Public Health, and Health Operations Divisions for Fiscal Year 2019/2020;
2. Adopt the fees recommended for the Tulare County Health & Human Services Agency: Environmental Health, Public Health, and Health Operations Divisions to cover costs; and
3. Authorize the Tulare County Health & Human Services Agency: Environmental Health, Public Health, and Health Operations Divisions to implement the fees beginning July 1, 2019.

**SUMMARY:**

The Health & Human Services Agency (HHS) performs services for which fees may be charged for a reasonable recovery of incurred costs. HHS reviews its fee schedule and calculates proposed fees on the basis of current costs and reasonable cost recovery. The Agency's recommended adjustments for Fiscal Year 2019/2020 do not exceed the reasonable costs of providing the corresponding services.

The requested fee adjustments for Fiscal Year 2019/2020 are for the Environmental Health, Public Health, and Health Operations Divisions in the Public Health Branch of the Health & Human Services Agency.

**SUBJECT:** Public Hearing for Adoption of Fee Adjustments  
**DATE:** April 30, 2019

The Summary of Proposed Fees for Fiscal Year 2019/2020 is attached to this Agenda.

HHSA has received approval from the Auditor-Controller's office on the cost recovery methodology in establishing the proposed fee adjustments (attached to the Agenda).

The public notice for the fee hearing was published in the Visalia Times-Delta on April 19, 2019. The second posting appeared in the Visalia Times-Delta on April 29, 2019. If approved, the adjustment to fees will take effect on July 1, 2019.

Proposed fee changes are:

### **Public Health Branch – Environmental Health Division**

The Environmental Health Division acts as the agency responsible for inspection and permitting various health permits in accordance with state regulations set forth in the California Health and Safety Code. The Environmental Health Division is proposing four (4) new fees, two (2) fee description revisions and twenty six (26) fee increases, as follows:

#### **Surveillance**

The California Health and Safety Code provides for the regulation of health and sanitation standards for retail food facilities. Surveillance, the Retail Food Inspection Program conducts compliance and enforcement on permanent and non-permanent operations that provide food or drinks for human consumption at a retail level. The California Food Code requires any person who operates a food facility to obtain all necessary permits by the enforcement agency, Tulare County Environmental Health. The food industry and the enforcement agency have a shared responsibility for ensuring that food provided to the consumer is safe and does not become a cause of a disease outbreak or contribute to the transmission of communicable diseases. Inspections are conducted one to three times per year dependent on the retail food facility risk type.

#### **New Fees:**

The existing California Health and Safety Code has been amended, necessitating the establishment of the following fees:

Catering Host Permits: AB 2524, passed in 2018, allows a licensed caterer to serve at private offsite functions, and to set up operations at permitted host facilities such as a brewery, winery, or commercial building for four (4) hours in a twelve (12) hour period. The fee will cover costs associated with the permitting and inspecting of these sites.

Single Use Straws: Assembly Bill (AB) 1884, passed in 2018, requires full-service

**SUBJECT:** Public Hearing for Adoption of Fee Adjustments  
**DATE:** April 30, 2019

restaurants with onsite consumption to provide single use straws only upon a customer's request. In order for this rule to apply the consumer is escorted to a seat, their food and beverage orders are taken and delivered directly to the consumer, any drink related items/requests are delivered directly to the consumer; and the check is delivered to the consumer at the eating area. The California Retail Food Code specifies that the first and second violations of these provisions would result in a notice of violation and any subsequent violation would be an infraction punishable by a fine of \$25 for each day the full-service restaurant is in violation, but not to exceed an annual total of \$300.

Children's Meals: Senate Bill (SB) 1192, passed in 2018, requires restaurants that sell children's meals that include a beverage to list on menus a default healthy drink such as water, sparkling water, or flavored water with no added sweeteners, unflavored milk, or other nondairy milk alternative that contains no more than 120 calories per serving. Customers can still order any beverage they like for their child. The California Retail Food Code has established penalties for violating this requirement. The first violation shall result in a notice of violation. A second violation within a five-year period from the notice of violation shall be a fine of not more than two hundred fifty dollars (\$250). For a third or subsequent violation within a five-year period, the fine shall be not more than five hundred dollars (\$500). A restaurant shall not be found to have committed a violation more than once during an inspection visit.

#### Revised Fees:

Re-Inspection Fee – Amending the amount of the fee from \$122/hour to 75% of the original permit amount. (Existing PE 7054) This would result in the following changes: a decrease to thirty eight (38) fees, and an increase to fifty two (52) fees.

Missed Vehicle Inspection Fee – Amending the amount of the fee from \$39 dollars to 75% of the original permit amount. (Existing PE 7057) This would result in an increase to four (4) fees.

#### Surveillance Fee Adjustments:

Eighteen (18) fee adjustment requests reflect an increase to these fees by 8%.

#### Dairy Fee Adjustments:

After Hours – Dairy Inspector – This fee will increase to match the hourly rate of other services provided by Registered Dairy Inspectors currently listed in the master fee schedule.

#### Certified Unified Program Agency Fee Adjustments:

Underground Storage Tank (UST) - Permit to Operate - No person may own or

**SUBJECT:** Public Hearing for Adoption of Fee Adjustments  
**DATE:** April 30, 2019

operate an underground storage tank unless a permit for its operation has been issued by the local agency. This fee is established to cover permitting and inspection responsibilities for underground storage tanks. The local agency shall inspect every underground tank system within its jurisdiction at least once every year to determine whether it complies with the applicable construction, monitoring and testing required by the permit, and ensure that the tank system is in a safe operating condition.

The current permit fee for UST – Permit to Operate is \$350 per tank. The Environmental Health Services Division is proposing to increase the fee to \$440 per tank. The fee adjustment will increase the cost recovery percentage for the total cost of the program's inspection services.

Risk Management Plan Evaluation up to 7 hrs – No person or business may handle extremely hazardous chemicals without a plan in place that addresses accidental releases. Plans are complex and require thorough evaluation to determine compliance with local, state and federal regulations.

Haz Mat - < 5 Reportable Quantities of Chemicals – No person or business may handle or store hazardous chemicals without obtaining a permit. The inspection checks for compliance with local, state, and federal regulations.

Tank Facilities - > 1,320 and < 10,000 gallons – No person or business may operate a fuel storage or dispensing facility without obtaining a permit. The inspection checks for compliance with local, state and federal regulations.

Local Enforcement Agency (LEA)/Solid Waste Fee Adjustments:

Compostable Material Handling Facility (CMHF) - No person or business may operate a CMHF without obtaining a permit from the LEA. The LEA shall inspect CMHF at least every 30 days to determine whether it complies with local, state and federal regulations.

Transfer Station/M.R.F. - No person or business may operate a CMHF without obtaining a permit from the LEA. The LEA shall inspect CMHF at least every 30 days to determine whether it complies with local, state and federal regulations.

Notification Tier Operation - No person or business may operate a tier operation without obtaining a permit from the LEA. The LEA shall inspect the tier operation at least every 90 days to determine whether it complies with local, state and federal regulations.

**Public Health Branch – Public Health Division**

Immunizations- Travel Clinic

**SUBJECT:** Public Hearing for Adoption of Fee Adjustments  
**DATE:** April 30, 2019

The Public Health Branch provides elective vaccines to the public at the actual cost of the vaccine plus an administrative fee of \$22. The actual costs of the vaccines can fluctuate often and in order to accommodate recent changes, the Public Health Branch is requesting to add two (2) new fees, and adjust five (5) fees. The vaccine fees are charged to either the Health Care plan or to the consumer

#### Public Health Laboratory

The Public Health Laboratory supports community health surveillance and outbreak investigations for various infectious and food borne pathogens. The Public Health Laboratory is requesting to establish three (3) new fees for laboratory procedures. These three (3) fees are for new services and have been determined based on the cost of performing the procedures using the supply and administrative costs to establish the fees.

In addition, the Public Health Laboratory is proposing to adjust three (3) fees, based on an annual analysis performed by the Tulare County Public Health Laboratory. These fees were determined based on the cost of performing testing using the supply and administrative costs to revise the fee.

#### Public Health Branch – Health Operations Division

##### County Health Care Centers

HHSA Health Operations Division is proposing to add sixteen (16) new clinic fees and adjust forty-nine (49) to its fee schedule. The Public Health Services Act requires that fees be sufficient to cover actual health center costs of operation and consistent with locally prevailing rates or charges.

The County Health Care Centers utilize a prevailing rate standard which sets fees at 150% of the Medicare reimbursement rate. If a fee is not Medicare reimbursable, the fee is set at 100% of the Medi-Cal reimbursement rate. This methodology has been used consistently in establishing the clinic fees since 2012. There are a significant number of fees in use at the County Health Care Centers so a procedure code review methodology was developed to determine which fees to select for modification. The top 100 utilized fees were examined for their compliance with the fee setting standard of 150% of Medicare or 100% of Medi-Cal rates. Any fees that had a greater than \$3.00 change *and* 5% increase/decrease were selected for submission and are listed below.

##### New Fees:

The sixteen (16) new fees are listed on the attached summary of proposed fees.

These codes reflect new medications, dose limits, or modified code numbers that are provided at County Clinics and can be billed based on the procedure code number.

**SUBJECT:** Public Hearing for Adoption of Fee Adjustments  
**DATE:** April 30, 2019

**Fee Adjustments:**

The forty-nine (49) adjusted fees are listed on the attached summary of proposed fees.

These codes reflect fee changes detected during the procedure code review process for services provided at County Clinics. Modifying these fees will maintain compliance with the established rate setting methodology.

**FISCAL IMPACT/FINANCING:**

The revenue from the proposed fee adjustments will be included in the revenue projections for the Fiscal Year 2019/2020 proposed budget. There is no net County Cost to the General Fund.

**LINKAGE TO THE COUNTY OF TULARE STRATEGIC BUSINESS PLAN:**

The County's five year strategic plan includes the Quality of Life Initiative to promote public health and welfare. The fee adjustments will allow Tulare County Health & Human Services Agency to continue to provide valuable services to our community members through our regulatory and consultative activities.

**To:** Health and Human Service Agency (HHSA)

**From:** Lori A. Martin, Chief Revenue Officer

**Subject:** Various Proposed Fees for Fiscal Year 2019-2020

Per your request, we have reviewed the attached proposed fees for HHSA – Clinics, Environmental Health, Immunizations, and Public Health Lab, and have found that the methodology appears to be reasonable. We have not audited these fees, nor do we attest to the accuracy or completeness of the calculations for cost figures provided.

If you have any questions, please feel free to contact me at 636-5211 or [LoriMartin@co.tulare.ca.us](mailto:LoriMartin@co.tulare.ca.us).

**NOTICE OF HEARING CONCERNING  
THE ADOPTION OF FEE  
ADJUSTMENTS  
REGARDING  
THE TULARE COUNTY HEALTH &  
HUMAN SERVICES AGENCY  
ENVIRONMENTAL HEALTH, PUBLIC  
HEALTH, AND HEALTH OPERATIONS  
DIVISIONS**

**FOR FISCAL YEAR 2019/2020**

Notice is hereby given that pursuant to Government Code Section 66018, the County of Tulare intends to hold a public hearing with respect to the adoption of fees for services provided by the Health and Human Services Agency: Environmental Health, Public Health, and Health Operations Divisions.

The hearing is set for April 30, at 9:30 a.m. in the Chambers of the Board of Supervisors, County Administration Building, 2800 Burrel Avenue, Visalia, California.

The purpose of the hearing is to consider oral and written presentations of any interested party with respect to the proposed increased and/or adjusted fees that would generate revenue to offset costs of services provided within the County Environmental Health, Public Health, and Health Operations Divisions.

The proposed fees and the basis for proposals are set forth in a letter to the Board of Supervisors. The recommendations in the letter will be presented to the Board of Supervisors for adoption at the close of the aforementioned public hearing. Further information can be obtained by contacting Robert Stewart at the Tulare County Health & Human Services Agency, 5957 S. Moon-ey Boulevard, Visalia, California, 93277.
