Agricultural Commissioner Seed Certification Responsibilities

County Agricultural Commissioner's are authorized by the California Seed Law and Regulations to engage in seed certification services in cooperation with the California Crop Improvement Association (CCIA), which is designated as the Recognized Agency to certify seed (California Code of Regulations, Section 3875) and thus are empowered to have rules and regulations for such certification. California Seed Law (Section 52421) states that the Commissioners may do all of the following:

- a. Cooperate with seed-certifying agencies which are officially recognized under the provisions of this chapter.
- b. Supervise the harvesting, cleaning, and packaging of any seed which is eligible for certification, and the affixing of labels and seals to it.
- c. Examine, sample, and test such seeds.
- d. Perform such other services as may be necessary to maintain the identity and quality of certified seed.

Contracts are issued by CCIA with all county commissioners involved. A fee is negotiated with the Commissioner and paid to the county. Services which must be performed by the Commissioner's office are described in these procedures, which expand on the General Seed Certification Standards.

APPLICATIONS

The Commissioner will have online access to applications at the time submitted application is accepted by CCIA. The Commissioner will receive weekly email notifications when applications are approved by CCIA.

FIELD INSPECTIONS

After CCIA's inspection of the field(s), a Field Inspection Report is prepared and will be available to the Commissioner at the CCIA web site.

The Field Inspection Report will include the names of the applicant and grower, crop and variety, applied acreage, county where the field(s) are located, application number, class and category of seed eligible to be produced, and whether the field(s) met or failed standards. Occasionally, a report will have special instructions indicating a portion of a field must not be harvested due to lack of isolation, excess weeds, etc. Compliance with these instructions may require monitoring by the Commissioner.

HARVESTING

Harvesting is subject to the supervision of the Commissioner. It is the Commissioner's discretion, based on previous compliance, as to the frequency and extent of these inspections. The Commissioner should refer to the Field Inspection Report for any special instructions about a particular field before allowing the harvest to proceed.

TRANSPORTING SEED FROM HARVESTER

Conveyances used in transporting the seed from harvester to storage or conditioning are also subject to supervision and inspection by the Commissioner. As with harvesting, it is the Commissioner's discretion, based on previous compliance, as to the frequency and extent of these inspections.

INTER-COUNTY PERMIT and INTER-STATE TRANSFER of SEED CERTIFICATE

It is the responsibility of the Commissioner to issue or have issued inter-county permits and inter-state transfer of seed certificates for seed moving between counties, states or (rarely) countries.

CONDITIONING

The Commissioner and CCIA must approve of any facility where seed intended for certification is to be conditioned by use of an Application for Certified Seed Conditioning Permit signed annually (July 1) by the operator who agrees to comply with standards, cooperate with the Commissioner and CCIA. The Commissioner or CCIA may inspect the facility at any time.

Approved facilities handling more than an occasional lot of seed for certification are expected to become accredited. This designation involves the appointment of a Certification Representative and less direct supervision by the Commissioner. At the discretion of the Commissioner, the Certification Representative will be responsible for any or all conditioning and related operations, acting as a representative of CCIA and the Commissioner at that facility. Only conditioners with personnel capable of meeting these responsibilities should be designated as Accredited.

CONDITIONER RECORDS

Conditioning records should be available to the Commissioner or CCIA at all times.

BLENDING

A copy of a Certified Seed Blending Permit will be sent to the conditioner and to the Commissioner, when such activity is requested.

SAMPLING

Unless the conditioner has Accredited status, the Commissioner samples seed eligible for certification. The sample should be drawn in the same manner that official samples are drawn (California Seed Law, Section 3872). A Certification Sample Form is required with a sample drawn for certification. CCIA and/or the Commissioner's office must approve any variations in sampling technique.

TAGS (LABELS) AND SEALS

The Commissioner's office and/or the conditioning plant must account for all tags. These tags are sent to the Commissioner for distribution to the conditioning facility. Upon request of the Commissioner, tags will be sent directly to the conditioning facility.

PRETAGGING

Seed eligible for certification may be tagged with the official certification tag at the time of conditioning, before final certification, if supervised by the Agricultural Commissioner and approved by CCIA.
