Appendix A – Program Narrative- Tulare

Section A: Statement of Need

Tulare County is proud of the service and sacrifice that our veterans have made to our country. More than 16,000 veterans and their families reside in Tulare County currently. Tulare County Veterans Service Office serves approximately 1,600 individual veterans per year. The overarching goal of our Veteran Services Office is to provide timely services to any individual who has served our country in any military capacity. Veterans can receive assistance with connecting to Veteran Affairs (VA) Benefits, VA Healthcare, employment assistance, death benefits, work-study programs, and more. Participants are typically engaged in the program through a variety of agency referrals as well as individual walk-ins.

While the work of our Veteran Services team is impressive, there are challenges that come with being a team of only four employees. First off, the sheer geographical size of our county plays a significant role in our team's outreach abilities. The 4,839 square miles consists of several rural communities which remain vastly underserved. Of Tulare County's 460,000 residents, approximately 24.7%, or 113,620 individuals, are living at or below the Federal Poverty Level, making Tulare County one of the poorest counties in the state. Tulare County also has the state's highest percentage of individuals receiving Medi-Cal, at nearly 55%, or 253,000 people. Together, the geographic expanse and socioeconomic status of Tulare County present a significant challenge.

Secondly, there are specific challenges that exist when trying to connect veterans to mental health services. These challenges need to be addressed through outreach efforts, as these are rarely the individuals we see in a walk-in capacity. A stigma exists around seeking mental health services, so the building of rapport is integral. Once rapport has been built, and a safe environment created, connecting veterans to this vitally important service becomes far more effective. Lastly, Tulare County remains a conservative area, which has led to a service gap specific to our LGBTQ community. This gap can be addressed through effective collaboration with medical providers, therapists, mentors, and resources of the like that specialize in providing services to this particular community.

Each of these service gaps can be addressed effectively, provided that Tulare County establish the infrastructure and collaboration to address the outreach required in doing so. Tulare County has several collaborative efforts already in place, and looks to leverage those as we work toward seeing these important needs met.

Section B: Proposed Service/Project

Tulare County's goal is to expand upon the program that was put in place last year following the award of the CalVET Prop 63 grant. We have hired a Veteran Program Navigator who accepts referrals from a variety of community partners, assesses the current needs of Veterans, and connects them appropriately to services including, but not limited to: Mental Health, Physical Health, LGBT specific services, housing, and financial assistance. Our new Program Navigator has spent the past several months building rapport with clientele, and this rapport has proven beneficial. Initial challenges, such as Veterans scheduling appointments, but then failing to attend them have become less prevalent with the new Program Navigator on board. It is not terribly often that a Veteran will request the Program Navigator join them for a first appointment, but if/when they wish to, they now have the relationship in place to do so. Outreach efforts have far exceeded our initial goals for the program, providing needed services to the more rural areas of our community that were previously unserved/underserved. One year ago at this time, our team hypothesized that a hands-on Program Navigator approach to outreach and linkage would benefit our local Veteran community, and the evidence of this program's success is overwhelming. We are currently on-target to connect twice as many Veterans to needed services than was our initial goal.

It is Tulare County's intent to expand upon the success of this program by focusing our efforts this year on strengthening housing support and legal assistance to our local Veterans. Our bi-county region is blessed to have a well-established Continuum of Care on Homelessness (CoC). Our team will strengthen the collaborative efforts with the CoC this year to ensure that Veterans are prioritized in the local fight against homelessness, and to connect our Veteran Program Navigator with the many community partners who are active in the CoC. This will both broaden the knowledgebase of our Program Navigator on the housing resources available locally, as well as increase the visibility of the Program Navigator within our community to ensure that appropriate referrals get made. It is also our intent to strengthen our collaborative efforts with both Central California Legal Services, and the Tulare County Public Defender's office to maximize as well as streamline the services available to

Veterans. Program Navigator will attend monthly CoC meetings to network with community partners and become the "face" of Veteran Services within the local housing community. Program Navigator will collaborate with Tulare County Public Defender, and specifically with the Administrators of the Clean Slate Project to strengthen both linkages and service delivery. Management will collaborate with Central California Legal Services to ensure that Veterans are a priority population for the services they provide.

The overarching goal of this project is to create a system that will allow veterans to connect to the services they need with very few hoops to jump through, little or no wait time at appointments, and minimal frustration, thus increasing the number of individuals receiving the services they so badly need.

Section C: Proposed Implementation Approach

Last year's data shows us that a project of this nature has a profoundly positive impact on our veteran community. This project allows us to continue to engage those who have otherwise been unserved. Whether the previous barrier to treatment was need for transportation, related to anxiety in social situations, fear of stigma associated with treatment, or lack of knowledge of available programs, our proposed project will effectively reduce or eliminate that barrier. This will, in turn, increase the number of local veterans connected to the services they need. This program will effectively increase outreach, prevention, and early intervention.

A standardized screening tool is used to assess each veteran which includes questions pertaining to: mental health, physical health, lack of safe and stable housing, financial stressors, substance abuse, and a variety of other factors which assists the program navigator in determining what resource(s) to connect with. Once the needed resources have been prioritized, the program navigator can begin the streamlined referral process.

We anticipate being able to serve 1,000 veterans through this project. We expect to do so through a variety of community outreach events, as well as the streamlined referral process being implemented in additional locations. The partner organizations with whom we will work include: Visalia Police Department - Homeless Outreach (HOPE) Team, Tulare County Mental Health Clinics, Tulare County Sheriff's Department, Alcohol and Other Drug Programs (AOD), Projects in Assistance for the Transition from Homelessness (PATH) Program, Tulare County Public Defender, Kings/Tulare Homeless Alliance, and The Source LGBTQ+ Center.

Significant barriers will include the County's large geographical size, and a limited number of staff to serve it. Having added a position specifically focused on outreach to this target population will assist in overcoming this barrier to a great extent. An additional barrier we intend to address is a more general resistance to treatment. We hope to overcome this barrier by continuing to utilize a specific point person who can build rapport with this clientele, answer any initial questions or concerns they might have, walk them through the process, and alleviate some of their resistance to engaging in needed treatment.

Tulare County Veteran Services does an outstanding job of coordinating with local resources and implementing appropriate services. As a part of the super agency that is Tulare County Health and Human Services Agency, they are well suited to collaborate with other agency programs such as Tulare County Mental Health, Alcohol and Other Drug Programs, and the Suicide Prevention Task Force. Leveraging these existing relationships will assist Tulare County Veteran Services in expanding upon this pilot project. In addition, direct project oversight will be the responsibility of Tulare County's Aging Services Manager. She brings to her role a background in mental health/AOD, as well as sitting on the Board of Directors for the local Continuum of Care on Homelessness. She has both the intimate knowledge of available programs, and the relationships in place to implement and manage a program of this nature.

As data is collected to show the effectiveness of this program, conversation will be ongoing with our County Board of Supervisors to discuss the sustainability of the program moving forward. Veteran Services employees are able to generate some revenue by way of work load units earned by connecting eligible veterans to benefits. Work load units are currently reimbursed at approximately \$29 each, so as the program navigator connects veterans to benefits, the revenue brought in by those workload units will assist in keeping the position sustainable. Lastly, Tulare County's goal is to continually fund this project by way of grant, by successfully demonstrating impact of the program.

Section D: Proposed Implementation Approach

Project performance data will be collected by program staff, and reported weekly to the designated administrative support person. All data will be stored in an Excel spreadsheet until such a time that the program has proven sustainable, and can be added to the existing Electronic Records Programs used currently. Data will include, but not be limited to: number of contacts made, failed contact attempts, services recommended, services accepted, referrals made, and appointments kept. Spreadsheet will be maintained, and cross checked for accuracy by administrative staff. Spreadsheet will be sent regularly to project manager to determine trends,

address obstacles, and validate program effectiveness on an ongoing basis. Data will be reported quarterly to Agency Directors, and CalVET.
