Therapeutic Behavioral Services (TBS)

DESCRIPTION

Therapeutic Behavioral Services (TBS) is an Early and Periodic Screening, Diagnosis and Treatment (EPSDT) supplemental specialty mental health service as defined in Title 9, CCR, Section 1810.215. TBS is an intensive one-to-one, short-term outpatient treatment intervention for beneficiaries under age 21 with serious emotional problems or mental illness who are experiencing a stressful transition or life crisis and need additional short-term specific support services. TBS must be needed to prevent placement in a group home at Rate Classification Level (RCL) 12 through 14 or a locked facility for the treatment of mental health needs or to enable a transition from any of those levels to a lower level of residential care.

TBS SCREENING REQUIREMENTS

All TBS referrals must be reviewed by COUNTY TBS Coordinator prior to services being rendered. Services provided without approval of the TBS Coordinated shall not be reimbursed.

GENERAL REQUIREMENTS

1. CONTRACTOR shall request COUNTY Mental Health Plan (MHP) payment authorization for TBS in advance of the delivery of services. The requirement for approval in advance of the delivery of TBS applies to direct one-to-one TBS and related service activities, but does not include the initial assessment that determines whether or not TBS criteria are met or to the initial development of TBS client plan. The initial assessment may include observation of the beneficiary in the settings in which TBS is expected to be delivered to note baseline behaviors and make a preliminary assessment of likely interventions. The MHP may reimburse CONTRACTOR for the initial assessment and the initial development of the TBS client plan as a mental health service or as TBS, as determined by the MHP.
2. The MHP shall make decision on CONTRACTOR payment authorization requests for TBS in advance of service delivery for the first authorization and subsequent reauthorizations of TBS.
3. Both the initial authorization and subsequent reauthorization decisions shall be made by a Licensed Practitioner of the Healing Arts (LPHA) as required by Title 9, CCR, Section 1830.215. During the term of this Agreement, CONTRACTOR shall have available and shall provide upon request to authorized MHP representatives of the COUNTY, a list of all persons by name, title, professional degree, and experience, who are providing services under this Agreement.

4. CONTRACTOR shall train and maintain appropriate supervision of all persons providing services under this Agreement with particular emphasis on the supervision of para-professionals, interns, students, and clinical volunteers in accordance with CONTRACTOR'S training of all appropriate staff on applicable State manuals and/or training materials and State and County Policies and Procedures as well as any other matters that COUNTY may reasonably require.
5. The MHP shall issue a decision on a CONTRACTOR's payment authorization request for TBS, three working days from the date the additional information is received or 14 calendar days, whichever is less.
6. MHP retains the authority to set additional standards necessary to manage the delivery of TBS, including but not limited to establishing maximum hours for individual TBS service components (e.g., assessment, client plan development, and collateral services), provided the MHP standards are consistent with applicable state and federal laws and regulations and do not prevent the delivery of medically necessary TBS.

ASSESSMENT

The TBS assessment should be completed within the first 10 days of service by a licensed/waivered staff person. During the first 30 days of service it is suggested that services range between 6-12 hours per week. *If more than suggested hours are required contact with the TBS Coordinator-Managed Care Department, is expected.

The TBS assessment should establish Medical Necessity for TBS by evaluating the child/youth's current behavior (presenting problem/impairment) and documenting the following:

- How the behavior causes a significant impairment in an important area of life functioning,
- A reasonable probability of significant deterioration in an important area of life functioning without TBS services, or
- A reasonable probability that the child/youth would not progress developmentally as individually appropriate without TBS services.

The following elements are required documentation components in order to substantiate medical necessity for mental health services. TBS assessments can be separate, or part of a more comprehensive assessment.

- Presenting Problem: Documentation of a client's chief behavioral impairment, history of the presenting problem(s), including current level of functioning, and current family information including relevant family history.
- Psychological Factors: Documentation of relevant conditions and psychological factors affecting the client's physical health and mental health, including living situation, education/vocational situation, daily activities, social support, cultural and linguistic factors, and history of trauma.

If possible, include information from other sources of clinical data, such as previous mental health records, and relevant psychological testing or consultation reports.

Include the name, address and current phone number of current source of medical treatment. - Prenatal: Documentation of the prenatal and perinatal events and relevant/significant developmental history. If possible, include other medical information from medical records or relevant consultation reports.

- Risks: Documentation of special status situations that present a risk to client or others, including past or current trauma.
- Mental Status Examination
- Diagnosis: A complete five-axis diagnosis from the most current DSM, or a diagnosis from the most current ICD-9 code shall be documented, consistent with the presenting problems, history, mental status examination and/or other clinical data.

1. Medi-cal Eligibility
2. Member Eligibility

Targeted Behaviors: Identify the child or youth's specific targeted behaviors and/or symptoms that jeopardize continuation of the current residential placement or put the child at risk for psychiatric hospitalization, or the specific targeted behaviors and/or symptoms that are expected to interfere when a child or youth is transitioning to a lower level of residential placement.
4. Clinical Judgment: Provide sufficient clinical information to demonstrate that TBS is necessary to sustain the residential placement, and can be expected to provide a level of intervention necessary to stabilize the child or youth in the existing residential placement or to address behaviors and/or symptoms that jeopardize the child or youth's transition to a lower level of care.
5. Behavior Modification: Identify what observable and measurable changes in behavior and/or symptoms TBS is expected to achieve and how the child's Coordinator or Service Team will know when these services have been successful and can be reduced or terminated.
6. Adaptive Behaviors: Identify skills and positive adaptive behaviors that the child or youth is using now to manage the problem behavior and/or is using in other circumstances that could replace the specified problem behaviors and/or symptoms.

PLAN OF CARE

The initial TBS Plan of Care should be completed in the first 10 days of service. Subsequent Plans of Care are required at 90 days and 150 days. All Plans of Care will be submitted 5 days prior to service block ending date, to Tulare County HHSA, Managed Care Department-TBS Coordinator.

The Plan of Care can be completed by a licensed/waivered staff person or a non licensed staff person with a co-signature of the above. The TBS Plan of Care is separate from the Consumer Wellness Plan and is specific to the delivery of TBS.

Transition Plan: A transition plan that describes in measurable terms how and when TBS will be decreased and ultimately discontinued, either when the identified benchmarks (which are the objectives that are met as the client progresses towards achieving plan of care goals) have been reached or when reasonable progress towards goals is not occurring and, in the clinical judgment of the Coordinator or Service Team developing the plan, are not reasonably expected to be achieved. This plan should address assisting parents/caregivers/school personnel with skills and strategies to provide continuity of care when TBS is discontinued, when appropriate in the individual case.
 1. Transitional Age Youth (TAY): As necessary, a plan for transition to adult services when the beneficiary is no longer eligible for TBS (i.e. beneficiary turns 21 years old) and will need continued services. This plan should also address assisting parents/caregivers with skills and strategies to provide continuity of care when this service is discontinued upon the beneficiary reaching 21 years of age.
 2. If the beneficiary is between 18 and 21 years of age, it is expected that case management notes, documenting the process of transitioning the beneficiary into Adult Mental Health Services, will be found in the home chart. Document any special circumstances that should be taken into account.
