PREFACE

The Tulare County Treasurer's Investment Policy Statement for the Pooled Investment Fund is presented annually to the Treasury Oversight Committee for review and to the County Board of Supervisors for approval as recommended by California Government Code §53646 and §27133 and shall remain in effect until the succeeding policy is adopted. This policy has been researched, prepared, and written under the direction of the Auditor-Controller/Treasurer-Tax Collector and the Chief Deputy Treasurer-Tax Collector of the County of Tulare. Each issue addressed in this policy is considered to be of timely and significant importance to the administration of the investment portfolio. While some portions of this policy are a restatement of State law, it is viewed that these restatements are integral to the purpose and flow of this policy.

The following statements are intended to ensure the achievement of the purpose, goals, and objectives of the investment strategy in an orderly, accurate manner. However, there is no guarantee that problems, errors or losses will not arise in the course of administering the investment of idle funds.

Among the obstacles and deterrents that may effect the achievement of the goals and objectives of the portfolio include but are not limited to the following: unforeseen national or international events or crises, deviation of actual cash flow from forecasted cash flow, unexpected demands on cash flow, policies made with regard to investment in local depositories, errors in data or advice used to make decisions, as well as any other unforeseen aberration or event that may have an effect on local, national or international financial markets, economies or politics which in turn has a decided effect upon the portfolio.

Keeping in mind the obstacles and deterrents in pursuing portfolio goals and objectives, this policy is designed to achieve a reasonable rate of return over an economic cycle, consistent with limited risk and prudent investment practices.

The Treasurer's Office also maintains a separate *Investment Guidelines and Procedures Manual* that is consistent with this Investment Policy.

SCOPE

The following investment policy governs the deposit, safekeeping, and investment of all funds under the control of the County Treasurer, as well as all related transactions and investment activities. It does not apply to bond funds or other assets belonging to the County of Tulare, or other affiliated public agency assets that reside outside of the County Treasury Pool.

PURPOSE

The purpose of the investment policy is to facilitate accomplishment of the goals and objectives of the Treasurer with regard to the investment of idle funds, to provide a framework within which to carry out the business of administering and investing the idle funds of the Treasury, and to improve communications at all levels between those involved and those interested in the process of investing and administering the idle funds of the Treasury.

GOALS AND OBJECTIVES

LEGAL COMPLIANCE

All investments shall be made in accordance with the County Treasurer's Investment Policy, California Government Code §27000 et. seq., and §53600 et. seq., and any forthcoming amendments or additions to the California Government Code in relation to the investment of local agency idle funds.

PRUDENCE

The administration of idle funds of the Tulare County Treasurer, as a fiduciary trustee, shall be performed in accordance with the prudent investor standard as stated in California Government Code §§27000.3 and 53600.3:

“When investing, reinvesting, purchasing, acquiring, exchanging, selling or managing public funds, the county treasurer shall act with care, skill, prudence, and diligence under the circumstances then prevailing, specifically including, but not limited to, the general economic conditions and the anticipated needs of the county and other depositors, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the county and other depositors.”

As prudence shall be applied in the context of portfolio management, investment officers and their advisors, acting in accordance with written procedures and exercising due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided that deviations from expectation are reported to the Treasurer in a timely fashion and appropriate action is taken to control adverse developments.

PRIMARY GOALS

The Treasurer's primary goals for the investment of idle funds (the portfolio) are, in order of priority as per California Government Code §§27000.5 and 53600.5:

1. **Safety** -- Safety of capital shall mean the safeguarding of capital through the selection of investments and investing procedures to best protect against loss arising from default, fraud, or error. This objective will be obtained through diversification and investment in securities of high quality to minimize credit risk and loss of principal.
2. **Liquidity** – The investment portfolio shall remain sufficiently liquid to enable the Treasury Pool to meet the operating requirements of its participants which might be reasonably anticipated and shall always have the ability to convert sufficient securities in the portfolio to cash to meet contingency needs.
3. **Yield** – The investment portfolio shall be designed with the objective of attaining the highest rate of return, taking into consideration income preservation, current market conditions, the present phase of the market cycle, both present and future cash flow needs, and the other primary goals of Safety and Liquidity.

PERFORMANCE MEASUREMENT

The investment portfolio will be managed in accordance with the parameters specified within this policy.

MAINTENANCE OF PUBLIC TRUST

As the Treasurer has been entrusted with the safekeeping of public monies received from public sources, the Treasurer in managing the investment portfolio shall exercise a high degree of professionalism to ensure and sustain public confidence, remembering that both the investment instruments and the methods of transacting investment business are subject to public review and scrutiny.

PUBLIC INQUIRY

The County Treasurer's portfolio and related transactions are a matter of public record. All districts whose funds are deposited with the Treasurer may receive a monthly/quarterly report of the portfolio by requesting a copy at the Treasurer's Office. In addition, any member of the public may receive a copy of the portfolio or Investment Policy by requesting a copy at the Treasurer's Office. The Treasurer may charge a fee for the copy, as allowed by law.

DELEGATION OF AUTHORITY

The management responsibility for the County of Tulare's investment program is hereby delegated to the County Treasurer in accordance with California Government Code Section 27000.1. Pursuant to California Government Code §27000.1, §53601 and §53635, the Tulare County Ordinance 3157, the County Treasurer shall be responsible for the investment of the County's funds (including the purchase, sale, or exchange of securities), the monitoring and reviewing of all investments for consistency under this investment policy.

The Treasurer shall have the responsibility to execute investment transactions on a day to day basis and shall establish a system of internal controls to regulate the investment activities. When circumstances warrant, the responsibility to execute investment transactions may be delegated to others. Transactions initiated by an external investment advisor must be in compliance with applicable documents, including, but not limited to, this Policy. Every transaction executed in the Liquid Investment Pool (LIP) must be approved by the Treasurer.

NO PERSON MAY ENGAGE IN AN INVESTMENT TRANSACTION EXCEPT AS PROVIDED UNDER THE LIMITS OF THIS POLICY AND THE PROCEDUES ESTABLISHED BY THE AUDITOR-CONTROLLER/TREASURER-TAX COLLECTOR.

COUNTY TREASURY OVERSIGHT COMMITTEE

Pursuant to the addition of Article 6, to Chapter 5 of Division 2 of Title 3 of the California Government Code, the Board of Supervisors, in consultation with the County Treasurer has created a County Treasury Oversight Committee to promote the public interest by involving depositors in the management of their funds and by enhancing the security and investment return of their funds through the establishment of criteria for the withdrawal of funds. The County of Tulare Treasury Oversight Committee shall annually review and monitor the Investment Policy and cause an annual audit to determine the Treasurer's compliance with the Investment Policy. Nothing in this policy shall be construed to allow the County Treasury Oversight Committee to direct individual investment decisions, select individual investment advisors, brokers or dealers, or impinge on the day-to-day operations of the County Treasury.

In compliance with §27132 of the California Government Code, the County Treasurer Oversight Committee shall consist of the following:

- a) The County Auditor
- b) A member of the Board of Supervisors or his/her designee
- c) The Superintendent of Schools or his designee
- d) A School District designee
- e) A Special District designee
- f) Two members of the public with expertise, or academic background in public finance.

CONFLICT OF INTEREST

The Auditor-Controller/Treasurer-Tax Collector, the Treasury Oversight Committee, and Treasury staff involved with the investment process shall not engage in any profession, trade, business or occupation which is incompatible or involves a conflict of interest with his/her duties; or which may reflect unfavorably on the County, the appointing authority, or on fellow employees.

Section 27133(d) requires limits to be set on the receipt of honoraria, gifts, and gratuities from advisors, brokers, dealers, bankers, or other persons with whom the County Treasury conducts business by any member of the County Treasury Oversight Committee and shall require the completion of an annual Statement of Economic Interests by each member to be filed with the member's respective agency. This policy sets a \$250 per current filing limit on the amount of honoraria, gifts and gratuities that a committee member may receive from a single source in a calendar year. This limit may be in addition to the limits set by a committee member's own agency, by state law, or by the Fair Political Practices Commission.

TERMS FOR FUNDS INVESTED WITH THE COUNTY INVESTMENT POOL

The Government Code requires the County Treasurer to define the limits and conditions under which local agencies having their money in the Investment Pool may deposit and withdraw their funds. The Government Codes confer upon the Treasurer the final authority as to how funds for which the Treasurer is held responsible for overseeing, are to be invested. The Treasurer must take into account the current financial condition of the sum total of the Pools' agencies, the conditions of the market place, as well as the cash flow projections and the potential for changes in the Pool's cash needs. The Treasurer must protect the earnings of each individual local agency in the Pool, and also see that no decision will reward a particular agency or group of agencies within the Pool at the expense of another or others within the Pool. If the Treasurer determines that a request for a withdrawal of funds for a specific or outside investment is not, in the Treasurer's opinion, in the best interest of a particular agency, or is overly detrimental to the Pool as a whole, the Treasurer must legally deny the request, or find a means of neutralizing the harm to all those affected.

FUNDS OF AGENCIES REQUIRED TO INVEST WITHIN THE POOL

Funds will be accepted at all times, in the manner prescribed, from those agencies where the County Treasurer is also the Treasurer for the local agency, or from any agencies that by statute must place their money in the County Investment Pool. Funds will earn interest based on the average daily balance apportioned on a quarterly basis.

The Treasury Pool's cash management plan provides for adequate liquidity to cover day-to-day operations of pool participants. The County Treasurer will honor all requests to withdraw funds for normal operations that are approved by the County Auditor at a one-dollar net asset value. To accommodate large withdrawals that exceed those normally associated with operations, the following written notification requirements must be followed to allow for adjustments to the liquidity position of the pool.

- ◆ Withdrawals of up to \$ 5,000,000.....24 hours
- ◆ Withdrawals of up to \$10,000,000.....48 hours
- ◆ Withdrawals of up to \$10,000,001 and above72 hours

Should a legislative body of a local agency determine that certain funds will not be required by the local agency for a period of at least one year, the local agency may petition the County Treasurer to invest that portion of the local agency's excess funds in a specific investment under the control of the County Treasurer. Such a petition should state the nature of the funds the legislative body wishes to invest specifically, and the reasons why the legislative body believes a specific investment is a preferable and viable alternative to the general Pools participation. Should the Treasurer determine that the request for a specific investment is valid and not overly counter-productive as to the Pool as a whole, the Treasurer will consult with the local agency's legislative body, or its appointed representative, to suggest and determine exactly what investment(s) should be purchased to fulfill the needs of the local agency. The Treasurer will then purchase the specific investment(s) upon receipt of a written resolution issued by the legislative body of the local agency, requesting the specific investment. The resolution must acknowledge that the local agency's legislative body takes full responsibility for the decision to purchase the specific investment(s), and that should conditions change requiring a sale prior to maturity of the specific investment(s), any loss that might be suffered as a result, will be solely that of the local agency, and that this loss shall not be shared by the Pool as a whole, nor by the County.

Under language added to the Government Code in 1995, it is not permissible for local agency legislative bodies, required to have their funds within the Pool, to withdraw funds from the Pool in order to invest outside the County Pool in any manner, at any time without specific permission of the Treasurer. Any such investments shall be either terminated and all funds returned to the Pool, or the securities so purchased must be transferred to the custody of the County Treasurer immediately. Upon receipt of any such securities by the Treasurer, the Treasurer shall at the Treasurer's option, place the investment in the Pool, terminate the investment at the current market value and credit the local agency with the proceeds, or place the security in the name of the local agency as a specific investment.

MONEY VOLUNTARILY INVESTED WITH THE COUNTY INVESTMENT POOL

By Code, the County Treasurer shall limit the amounts and set conditions under which money from local agencies, not required to have their funds in the investment Pool, may deposit and withdraw voluntarily invested funds. Local agencies from outside the County will not be permitted to deposit funds in the County Pool. Funds from local agencies within the County, voluntarily wishing to participate in the Pool, will not be accepted under normal conditions unless the Treasurer is assured that these funds are in lieu of longer term investments. Such deposits are subject to withdrawal restrictions for a set minimal term as to be agreed to prior to the funds being accepted into the Pool, and may not be withdrawn at any time without a minimum of 30 days notice of "intent to withdraw".

Under normal conditions, voluntary money withdrawn from the Pool will be disbursed on a dollar for dollar basis, plus appropriate interest, but under adverse market conditions, when the Treasurer deems the withdrawal of voluntary funds would cause undue losses or significantly lower earnings for those local agencies remaining within the Pool, the Treasurer may require one or more of three remedies:

1. Restrict the percentage of funds that may be withdrawn in any given month;
2. Restrict the rate at which the funds may be withdrawn;
3. Require the local agency withdrawing their funds to accept their funds based on the current market value of the overall Pool.

These terms will be agreed to and contracts signed prior to any voluntary money being accepted into the County Investment Pool. Such terms may exceed minimum requirements set forth in the Government Codes.

Specific investments are not normally permitted with voluntary funds, though on a cost recovery basis and under circumstances that dictate such activity, exceptions may be permitted.

AUTHORIZED INVESTMENT INSTRUMENTS

No investment shall be made in any security with a maturity greater than five years, unless it is approved by the Board of Supervisors. Some investments are restricted to terms less than five years. These maturity limitations are described in this Policy. The term "maturity" in this Policy is defined as an instrument's stated legal final redemption date.

The dollar-weighted average maturity of the portfolio shall not exceed 3.5 years.

The following defines in detail the parameters of each approved investment type. Any instrument not expressly permitted is prohibited. Specific limitations are provided on the maximum allowable percentage per investment category and further limitations by issuer within each investment category. With the exception of overnight repurchase agreements, U.S. Government securities, including its agencies and instrumentalities, and authorized pools, no more than 10% of the County's aggregate investment portfolio may be invested in securities of a single issuer. Where there is a percentage limitation for a particular category of investment, that percentage is only applicable at the time of purchase. If at the end of any quarter, any percentage in any restricted security is higher than the maximum allowed by category at time of purchase, the Treasurer shall take action within 90 days, to adjust the portfolio holdings so that the percentages are brought within the percentage limits.
