**SUBJECT:** MySQL – Oracle License and Services Agreement.

**REQUEST(S):**

That the Board of Supervisors:

1. Ratify and authorize the Purchasing Agent's signature on the license and services agreement with Oracle to provide license and maintenance support for MySQL, retroactive to May 21, 2011 through May 21, 2012. This agreement is retroactive in order to stay current with the County's software licenses with Oracle.
2. Find that the Purchasing Agent had authority to enter into the proposed agreement as of May 21, 2011 and that it was in the County's best interest to enter into the agreement on that date.

**SUMMARY:**

The Information Technology (IT) Department is responsible for purchasing and maintaining the hardware and software contracts for the Information Technology assets of Tulare County, including but not limited to the mainframe computer, the data center servers, network infrastructure components and Storage Area Network (SAN).

For the past 10 years MySQL has been the program used in Tulare County to build databases. Recently, Oracle bought Sun and acquired MySQL in the process. There is an agreement by Oracle to continue our current maintenance for MySQL. The

agreement deviates from the County Contract Protocol as it requires the County to submit to venue in either San Francisco, San Mateo or Santa Clara Counties.

**FISCAL IMPACT/FINANCING:**

There is no fiscal impact.

**LINKAGE TO THE COUNTY OF TULARE STRATEGIC BUSINESS PLAN:**

This project contributes to the County strategic goal of improved organizational performance by allowing us to reliably provide database services for our MySQL data and systems for the County of Tulare.

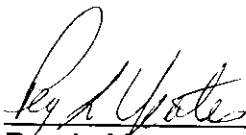

**ALTERNATIVES:**

The Board could choose not to approve the agreement, but this is not recommended. This will allow the maintenance to lapse and we will no longer receive updates or assistance for any problems that may arise in our environment.

**INVOLVEMENT OF OTHER DEPARTMENTS OR AGENCIES:**

County Counsel reviewed the agreement.
