SUBJECT: Measure R Program Supplement to Cooperative Agreement for the Traffic Signal at Avenue 296 and Road 156 Project.

REQUEST(S):

That the Board of Supervisors:

1. Approve the Measure R Program Supplement to Cooperative Agreement for the Traffic Signal at Avenue 296 and Road 156 project in the amount of \$40,000; and
2. Authorize the Chairman of the Board of Supervisors to sign the Program Supplement.

SUMMARY:

On May 22, 2007, the County entered an agreement (Tulare County Agreement No. 23149) with the Tulare County Transportation Authority to utilize revenue collected under Measure R for local and regional transportation projects. The application of these funds to a particular project requires an agreement between the County and the Tulare County Transportation Authority in the form of a Program Supplement.

This program supplement authorizes the Tulare County Transportation Authority to fund the preliminary engineering phase of the Traffic Signal at Avenue 296 and Road 156 project (Project) in the amount of \$40,000. There is no Federal match for the preliminary engineering portion. This \$40,000 of Measure R funds will be used for this portion of this project.

Resource Management Agency staff will submit an application for federal

DATE: June 19, 2012

The total cost of this project including construction and construction engineering is estimated at \$502,000. \$361,000 will be funded by the federal Congestion Mitigation and Air Quality Improvement Program (CMAQ) and the remaining \$141,000 will be funded by Measure R. Once preliminary engineering is completed, staff will submit another request for a Measure R supplement as well as a federal program supplement which will be used to encumber the construction and construction engineering phases of the project.

Measure R funds in the amount of \$40,000 will be used for revenue (reimbursements) under the County's budget line 014-225-2300-1317. Expenditures for this Project will be from RMA Roads budget line 014-225-2300-2150.

This project will enhance the safety and security of the public by improving the transportation infrastructure for both the general population in the region and the motorists using this facility.
